## ABOUT THIS REPORT

The RadioWave 100 tracks the 100 most popular titles on Internet and On-Demand broadcasts, as determined by airplay and stream detections from all of the monitored broadcasts on our panel. Rankings are determined based on stream detections, then spins. Chart ranks titles in Current status only.

Titles are sent to Recurrent status if they are more than 30 weeks old and have dropped below the Top 30. A bullet is assigned to those singles that have gained in their Stream + Spin totals since the previous week.
